

## **LEDS Global Partnership 2015 Annual Workshop**

# **Implementing LEDS: Innovation and Good Practices**

**October 14-16, 2015**

**Punta Cana, Dominican Republic**

### ***Overview:***

The LEDS GP 2015 annual event focuses on common priority topics across the regions and provides an opportunity for training and collaboration across regions. In-depth training will center on financing LEDS and assessment and communication of benefits; while peer learning sessions will cover Agriculture, Forestry and Other Land Use, Energy, Transportation, and Subnational Integration of LEDS, along with innovations with all phases of LEDS.

### ***Workshop Participants:***

Countries will be asked to identify leaders of their work on LEDS finance and benefits topics for priority sectors who could be invited to attend, along with overall managers of LEDS processes. In addition, regional and international programs representatives and international experts will also be invited to attend the workshop.

### ***Workshop Objectives:***

- Conduct peer learning and in depth training on LEDS finance and benefits assessment and communications
- Facilitate peer to peer learning on sector LEDS measures
- Share lessons and innovations on LEDS across countries and programs
- Highlight leadership and advance collaboration across countries, the private sector, and international LEDS programs
- Plan for future LEDS GP and regional platform activities

### ***Participant's expectations:***

Workshop participants are expected to:

- Identify personal learning objectives prior to the workshop, including specific topics (especially on LEDS finance and benefits issues) where they would like to participate in peer exchange and/or in-depth training
- Determine what lessons and experiences, resources and activities their organization can share with others and be prepared to share information during table discussions, market place, and open space sessions.

- Conduct advance work prior to the event to be prepared to discuss specific priority activities they are pursuing on finance and benefits and other priority topics and opportunities for collaboration.
- Identify during the workshop concrete areas where they will apply learning and resources obtained at the workshop and where they could increase engagement in the LEDS GP regional platforms, working groups and global activities.
- Report back on how learning is being applied and on echo-training and other forms of knowledge sharing after the event.

**Country consultations:**

Informal consultations with country representatives will be scheduled during the breaks to explain the LEDS GP services including the Remote Expert Assistance on LEDS and identify areas of interest in obtaining advisory support. These consultations will be held by the global secretariat, regional secretariats and working group leads.
