

# LEDS Global Partnership 2017 Work Program<sup>1</sup>

## I. Introduction

The Low Emission Development Strategies Global Partnership (LEDS GP) is a unique network working to enhance climate resilient, low carbon development. We offer our members a platform to come together to exchange experiences and lessons learned, create innovative solutions to challenges, receive and deliver capacity building trainings and technical support, and participate in early mover initiatives to advance joint action on low emission development strategies (LEDS) and nationally determined contributions (NDCs).

Founded in 2011, LEDS GP engages leaders from more than 300 country governments and international organizations (and over 2000 practitioners) to collaborate, coordinate, and exchange knowledge to progress low emission development pathways that contribute towards achieving national mitigation commitments.<sup>2</sup>

During a strategic meeting in the margins of the 22<sup>nd</sup> Conference of the Parties held Marrakesh, Morocco in November 2016, the LEDS GP Steering Committee<sup>3</sup> discussed ways in which the LEDS GP could deepen impact through to 2020. The outcomes of the discussion, which are based on the needs and suggestions that have been heard from member countries, include:

- I) Expanding collaboration across various countries and international partners to deepen practitioner based learning on priority topics through communities of practice; and
- II) Fostering joint action by groups of early mover countries, capturing good practices and providing technical assistance to replicate successful approaches.

In addition the LEDS GP Secretariat will facilitate connection and deepen collaboration with key partnerships, with a special focus on the newly formed NDC Partnership and the NDC Cluster to ensure we are leveraging efforts and avoiding duplication and burdening our member countries.

This annual work program builds on the outcomes of this strategic meeting, which are also reflected in greater detail in the LEDS GP's Strategic Vision 2017-2020. This document is split into five parts:

Section 1 – Introduction

Section II – LEDS GP mission, vision, and objectives

Section III – LEDS GP annual goals and metrics

Section IV – Detailed 2017 activities and deliverables

Section V – LEDS GP budget summary

---

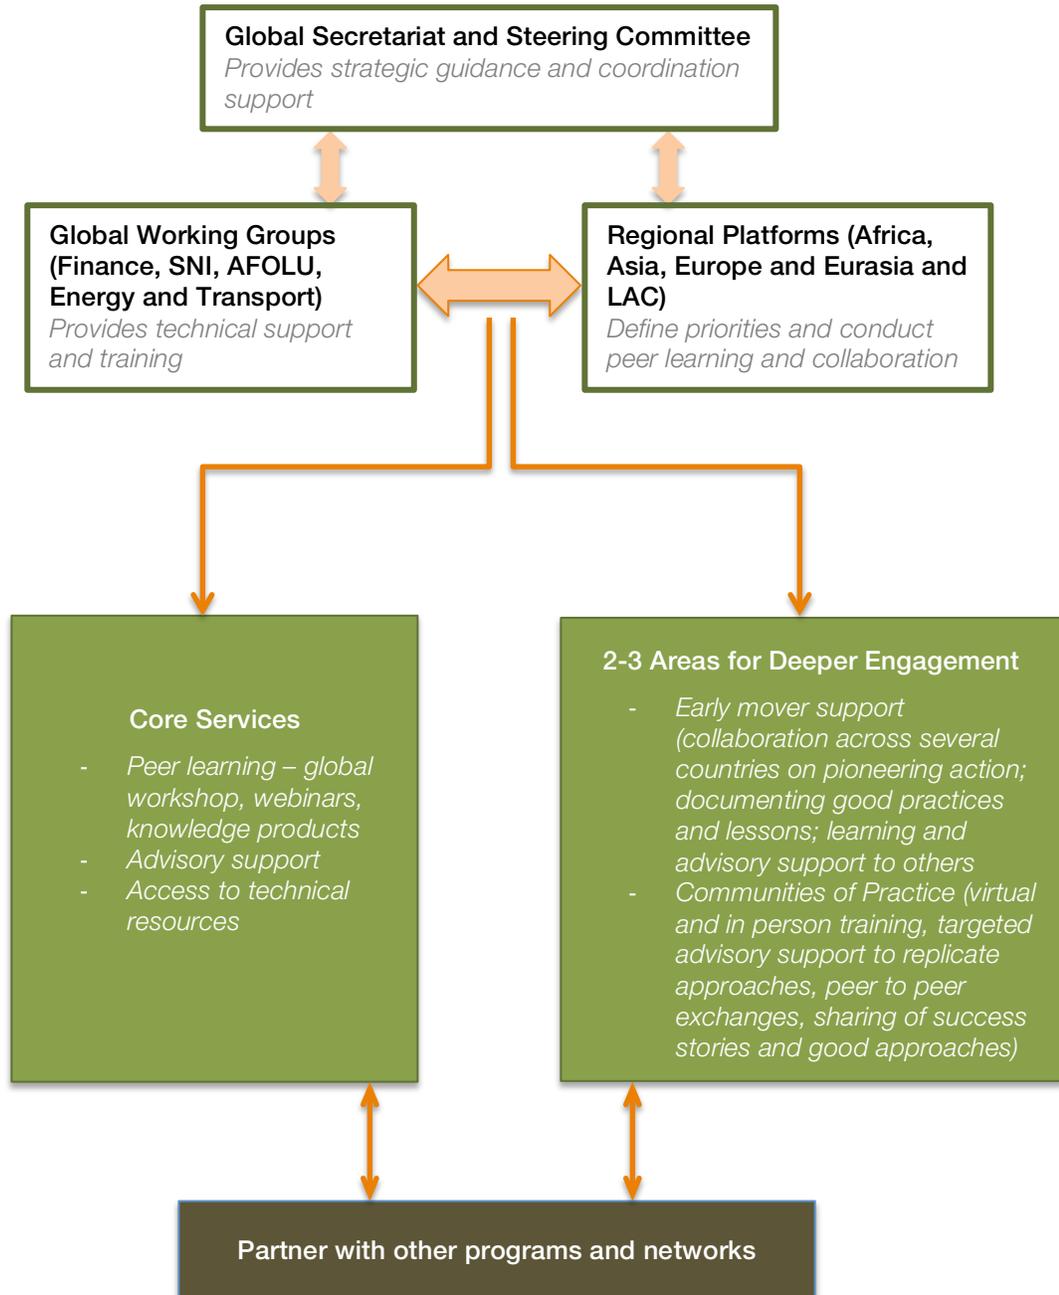

<sup>1</sup> The LEDS GP updates the global work plan on an annual basis.

<sup>2</sup> For a list of all LEDS GP members please visit: [www.ledsgp.org](http://www.ledsgp.org).

<sup>3</sup> For a list of Steering Committee members, please visit: <http://ledsgp.org/leds-steering-committee-members>

Figure 1 exemplifies how the 2017 work program is structured in order to achieve the impacts and outcomes expected for this year and beyond.

Figure 1 – LEADS GP work plan structure

## II. LEADS GP vision, mission, and objectives

The LEADS GP's Vision, Mission, and Objectives guide the design and implementation of the activities under this annual work program.

### Vision

- A world in which low emission climate resilient development for all is delivered and safeguarded over time by high-quality and ambitious low emission development strategies; set and effectively implemented within all countries, subnational systems, and sectors.

### Mission

- To facilitate collaboration between those working in national and subnational government administrations, donor agencies, businesses and international organizations within a neutral and apolitical platform – in order to build the influence and capabilities of low emission development practitioners, especially those in developing countries. In so doing, LEADS GP will help to scale up and strengthen the implementation, ambition and urgency of climate resilient low emission development strategies and NDCs.

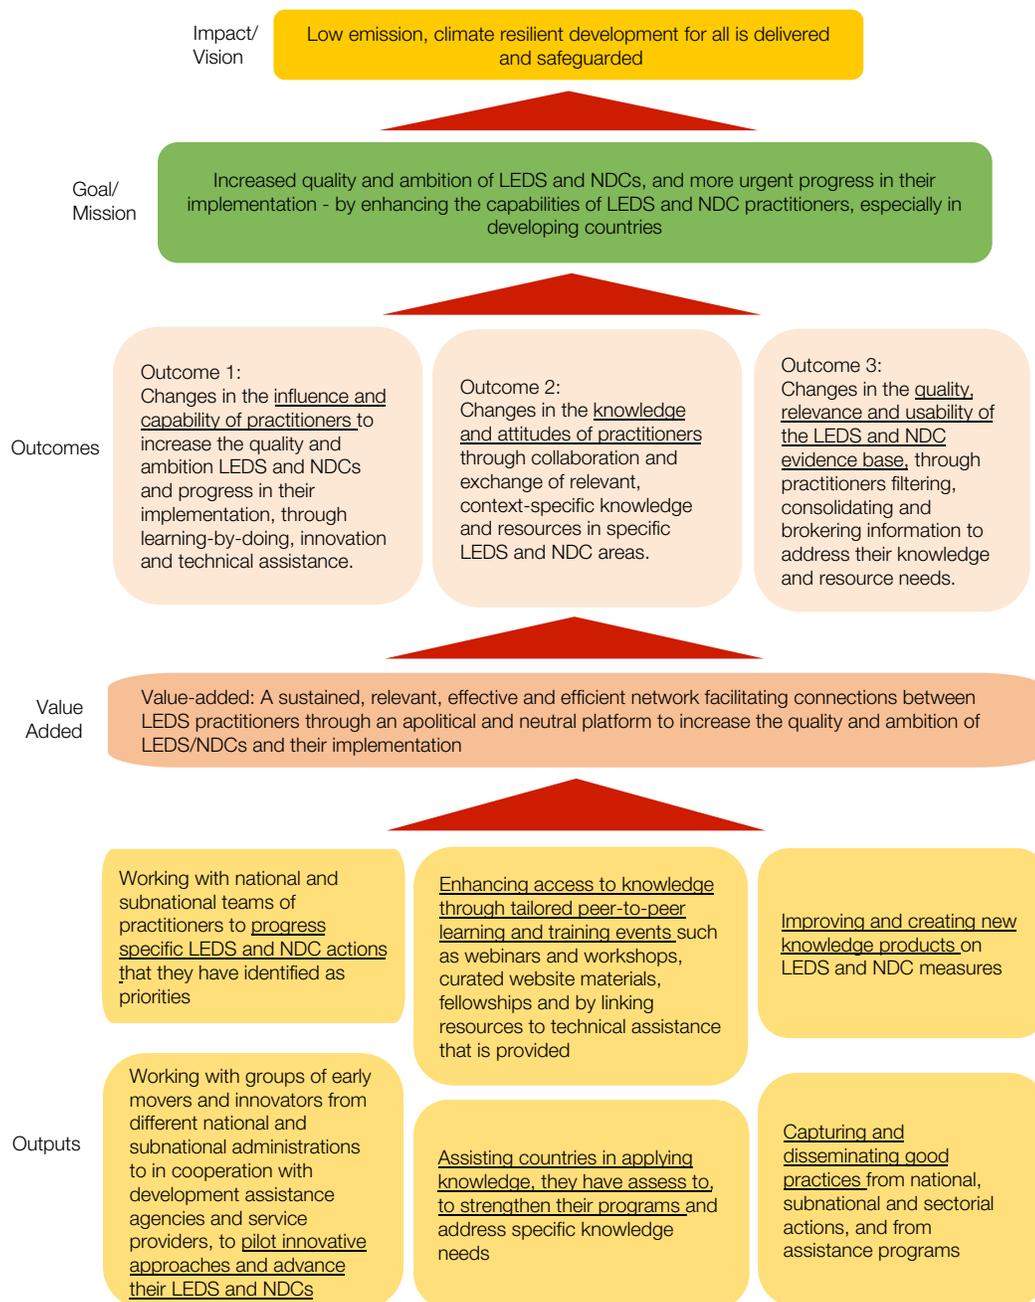

### Strategic Objectives

- Strengthen quality, coordinated support, and leadership of climate resilient low emission development strategies by countries in all regions, and especially in developing countries.
- Foster effective implementation of LEADS and NDCs through policy, planning and investment actions.
- Spur development of new LEADS by additional national and subnational governments.
- Enable LEADS champions to demonstrate leadership on LEADS within their national and subnational administrations, organizations and internationally.

### III. LEDS GP annual goals and metrics

In order to achieve our Mission, Vision and Objectives, the LEDS GP works towards three key outcomes outlined in the Figure 2. The following table then outlines the major annual activities that will contribute towards achieving these three major outcomes with associated annual performance metrics.

Figure 2: LEDS GP results framework 2017 - 2020

To achieve the goal outlined in the results framework in Figure 2, we have identified key outcomes, activities and annual performance metrics for 2017, shown in Table 1.

*Table 1: Key deliverables and performance metrics*

Outcomes	Annual Activities to Achieve Outcome	Annual Performance Metrics
<p><b>Enhanced influence and capability of practitioners to increase the quality and ambition LEDS and NDCs, and progress in their implementation, through learning-by-doing, innovation and technical assistance</b></p>	<p><u>Early Mover initiatives and Associated Communities of Practice</u></p> <ul style="list-style-type: none"> <li>• Multi-level governance – 3-6 countries in LAC, Asia and Africa to improve multi-level governance to advance policies and measures in key priority sectors. Country teams will be formed to develop a work plan and collaborate with the regional platforms to advance specific action through trainings and targeted technical support. Case studies and peer learning forums will be used to disseminate lessons with other countries in the region.</li> <li>• Clean Energy Investment Accelerator – up to 10 countries to receive in depth support on private sector mobilization. In addition, light advisory support will be provided to other countries interested in replicating good approaches. A finance community of practice will be formed to disseminate lessons to other countries through virtual and in person regional peer learning forums, and knowledge management products – supported by IKI and US Government.</li> <li>• Minigrid standards – up to three Power Africa Countries to receive targeted technical support to advance minigrid design and implementation. Lessons to be shared with other countries in the region through documentation of good practices, virtual exchanges and light advisory support to replicate good approaches – collaboration with USAID and</li> </ul>	<p>Conducted at least five early mover initiatives, involving at least 30 early mover countries, and replicated exemplar actions in at least 10 additional countries.</p> <p>Exposed at least 20 national and subnational governments to approaches and learning on LEDS and NDCs analysis and planning, including approaches for vertical integration with documented improvement in at least eight cases.</p> <p>Piloted innovative early mover NDC Investment initiatives (including the NDC Investment Accelerator) in at least 10 countries.</p> <p>Strengthened at least 20 LEDS and NDC policies and measures</p> <p>Progressed broad-based LEDS and NDC investment actions in at least four individual countries</p> <p>Substantially improved the quality and impact of LEDS and NDCs in eight countries in Africa, with at least 20 additional countries applying learning from this initiative.</p> <p>Curation of 15 examples of how LEDS GP members have enhanced specific capabilities through training opportunities, advisory support, early</p>

	<p>NREL.</p> <ul style="list-style-type: none"> <li>• Bioelectricity – up to two LAC countries to receive in depth support to advance specific policies and measures. Bioelectricity Community of Practice started in 2016 will continue with virtual sessions for participants to share information on progress of their country efforts.</li> <li>• Africa LEDS project – eight African countries to receive targeted advisory support on LEDS Planning and Climate Modeling. A broader regional training component within five sub-regions of Africa is also planned in order to disseminate the knowledge to other countries in the continent – supported by European Commission and UNEP.</li> <li>• Renewable Energy Grid Integration – in depth technical support to selected countries in central Asia. A community of practice will be formed to disseminate knowledge and provide training and light advisory support to additional countries in the region – collaboration with USAID and NREL.</li> <li>• Transport component of country's NDCS – support two LAC and Asian countries to advance implementation of transport measures within NDCs. Transport communities of practice to continue to engage additional countries.</li> <li>• AFOLU – early mover support to at least two countries on linkages of REDD+ and LEDS and two countries on linkages of CSA and LEDS measures.</li> <li>• REAL – delivery of advisory support to respond to a minimum of 30 requests</li> </ul>	<p>mover activities and access to knowledge products and tools.</p>
--	--	---

<p>Enhanced knowledge and attitudes of practitioners, through collaboration and exchange of relevant, context-specific knowledge and resources in specific LEDS and NDC areas</p>	<p><u>Peer Learning and Trainings</u></p> <ul style="list-style-type: none"> <li>• Annual Workshop – held in collaboration with the NDC Cluster and UNDP in Berlin on May 2-6 2017</li> <li>• Regional Workshops – in (August/Sept 2017), Asia (Sept/Oct 2017), E&amp;E (Sept 2017) and LAC (Oct/Nov 2017)</li> <li>• Thematic Workshops - held in all regions throughout the year.</li> <li>• Webinars – held once a month or once every two months in all regions and globally through the regional platforms and working groups. The webinars in 2017 will be mostly associated with the priority areas for each region with a few exceptions of webinars held in conjunction with other partners based on country demand on topics that go beyond the key priority themes.</li> <li>• Fellowship – TBD pending funding availability</li> </ul>	<p>Training opportunities taken up by at least 1000 LEDS practitioners per annum (4,000 in total)</p>
<p>Increased quality, relevance and usability of the LEDS and NDC evidence base, through practitioners filtering, consolidating and brokering information to address their knowledge and resource needs</p>	<ul style="list-style-type: none"> <li>• Case Studies and Good Practices – WGs and RPs will produce case studies and document good approaches for each priority area</li> <li>• Tools and other resources – Transport and the Energy Toolkits will go through an improvement process in 2017 to include additional resources. The transport toolkit in particular will be transferred to the new website.</li> <li>• LEDS and NDC Leadership Database – released in 2016, this database will undergo improvements to include leadership examples from additional countries in all regions and improve searching functionality.</li> <li>• Expert Advisory Support and Virtual Exchanges – in 2017, the LEDS GP estimates delivery of light advisory support to respond to at least 20 requests from partner countries. In addition, the LEDS GP secretariat, regional platforms and working groups will</li> </ul>	<p>At least five new knowledge products each year with at least 25 uses document of each product during the Strategic Plan period.</p> <p>An enhanced searchable resource (with a map) to be launched in early 2017.</p> <p>Showcase and promote leadership examples through LEDS GP events, webinars, website and other activities in at least three areas, with examples profiled each year within each region.</p>

	<p>continue to facilitate the exchange of knowledge among countries.</p> <ul style="list-style-type: none"> <li>• LEADS Leadership Awards – selection process to take place throughout 2017 with delivery of awards at COP 23.</li> </ul>	
--	---	--

In 2017 and beyond, the LEADS GP is increasing efforts to diversify funding and expand strategic partnerships. One of our key goals for 2017 is to work with each regional platform and working groups:

- Regional platforms: Secure significant ongoing support from at least two sponsors beyond the LEADS GP Secretariat
- Working Groups: Secure support from at least one sponsor beyond funding enabled by LEADS GP Secretariat
- Global secretariat: Secure support from at least one sponsor beyond funding from the Department of State

In order to achieve these goals, regional platforms and working groups will work together to submit at least one early mover and peer learning proposal per year and continue discussion with key strategic partners and potential donors. In addition, the global secretariat will continue to lead fundraising efforts at the global level and lead at least two proposals in 2017 in close coordination with the regional platforms and working groups.

## IV. Detailed 2017 Activities and Deliverables

Table 2 shows more specific deliverables for 2017 for each of the regional platforms, working groups and the global secretariat. Columns are arranged by priority area, focus, key deliverables, dates of implementation, and target metrics. Individual work plans of each regional platform and working group will be available shortly on ledsgp.org

Table 2: Overview of 2017 Activities

Priority Area	Focus	Deliverables	Dates	Targets
Africa LEDS Partnership				
Finance	<b>Finance Mobilization for LEDS and NDC (collaboration with the FWG)</b>	<p><b>Early Mover Investment Mobilization Project</b></p> <ul style="list-style-type: none"> <li>• Delivery of TA on investment mobilization to Kenya and Ethiopia</li> <li>• Conduct country forums [Kenya, Ethiopia] to discuss opportunities for partnerships for NDC implementation</li> <li>• Capture and share experiences of finance mobilization projects</li> <li>• Knowledge sharing on country priority investment areas, and sources of private finance to potential project developers</li> </ul> <p><b>Finance Community of Practice</b></p> <ul style="list-style-type: none"> <li>• Develop knowledge products together with Finance Working Group</li> <li>• Conduct webinars</li> <li>• Follow up on outcomes and requests from the 4C/GIZ/AfLP Finance training workshop in Casablanca, e.g. concept of Finance CoP in partnership with AfDB's GCF Climate Finance CoP and others</li> <li>• Conduct at least one training workshop and advisory support to additional countries</li> </ul>	<p>Q3 2017 – Initial country forums</p> <p>Q4 2017 – Initial case studies</p> <p>Q1 2018 – Launch advisory support to additional countries</p> <p>Q2 2017 onwards – Training workshop</p>	<ul style="list-style-type: none"> <li>• Improved capacity of 2-3 countries to design finance measures</li> <li>• Partnerships with finance community</li> <li>• At least 30 AfLP members benefit from lessons learned</li> </ul>

Energy	<b>Minigrids (collaboration with the EWG)</b>	<p><b>Early Mover Support</b></p> <ul style="list-style-type: none"> <li>Deliver TA to 2-3 early mover countries with Power Africa support</li> </ul> <p><b>Community of Practice</b></p> <ul style="list-style-type: none"> <li>Minigrid Training at the Africa Carbon Forum</li> <li>Deliver additional in person trainings on minigrids design</li> <li>Document good practices and lessons learned</li> <li>Provide TA to additional countries to replicate good approaches</li> </ul>	<p>Q1-Q4 2017 – TA</p> <p>Q2 2017 – Minigrid Quality Assurance Framework, Benin- ACF</p>	<ul style="list-style-type: none"> <li>Minimum four countries and eight individuals actively engaged</li> <li>Capacity of at least two countries strengthened</li> <li>At least three case studies developed</li> <li>Advisory support to at least three additional countries provided</li> <li>Funding secure to extend activities</li> </ul>
AFOLU	TBD (collaboration with the AFOLU WG)	<ul style="list-style-type: none"> <li>Form an Africa AFOLU hub within the AFOLU Working Group that caters to the particular challenges and contexts within the continent – varying biomes, population growth pressure, international purchase of arable land for export agriculture, mainstreaming gender related issues</li> <li>Collaborate with Winrock/ AFOLU WG to develop proposal to implement AFOLU NDC</li> <li>Advisory support to countries and knowledge exchange activities</li> <li>Training workshop focused on AFOLU topic</li> </ul>	<p>Q1 2017 – Hub formed</p> <p>April 2017 – Work plan for the hub prepared</p> <p>Activities of group is all year round</p>	<ul style="list-style-type: none"> <li>A five member core regional AFOLU hub formed</li> <li>3-5 knowledge exchange activities on AFOLU with up to 15 countries participate</li> <li>Resources secured for additional activities</li> </ul>
Africa LEDS Project	<b>Planning and Modeling Support</b>	<p><b>Early Mover Support on LEDS Planning and Energy Modeling</b></p> <ul style="list-style-type: none"> <li>Deliver LEDS planning and modeling support to eight African countries and convene regional and sub-regional modeling forums to build capacity across Africa</li> <li>Experiences and lessons sharing at an event, e.g. at</li> </ul>	<p>Q1 2017 – contracting to begin work and scoping missions</p> <p>Q2 2017 onwards – implementat</p>	<ul style="list-style-type: none"> <li>Capacity of eight countries improved and specific implementation measures advanced in these countries</li> <li>Lessons and experiences learned in project implementation</li> </ul>

		<p>Bonn June meetings, AMCEN or AfLP Annual Event</p> <ul style="list-style-type: none"> <li>Develop communication materials to disseminate lessons</li> </ul>	<p>ion</p> <p>Q4 2017 – launch of the regional learning networks</p>	<p>shared with other countries</p> <ul style="list-style-type: none"> <li>Training provided to broader set of African countries on LEDS and NDC modeling and planning</li> </ul>
Subnational (pending securing additional funding)	<b>Multilevel Governance (collaboration with SNI WG)</b>	<p><b>Early mover Project and Community of Practice</b></p> <ul style="list-style-type: none"> <li>Call for applications and selection process</li> <li>Form country teams and development of work plans with each country team</li> <li>Delivery of technical assistance to country teams</li> </ul> <p>Coordination of the preparation of a case study, lessons learned and other dissemination materials</p>	<p>Q1 2017 – Call for proposals</p> <p>Q1-Q4 2017 – Delivery of TA</p> <p>Q1 2018 – Case study</p>	<ul style="list-style-type: none"> <li>At least one country with improved MLG and intersectoral collaboration to advance LEDS and NDCs</li> <li>Additional countries applying new tools and experiences to advance SNI of NDCs.</li> </ul>
Cross-Cutting		<ul style="list-style-type: none"> <li>Communications and knowledge management products</li> <li>Regional workshop</li> <li>Fundraising proposals</li> <li>REAL support</li> </ul>	<p>Q3 2017 – Workshop</p> <p>Ongoing – KM, fundraising and REAL</p>	<ul style="list-style-type: none"> <li>Funding diversification plan and three funding proposals</li> <li>Delivery of peer learning and training to 150-200 participants</li> </ul>
<b>Asia LEDS Partnership</b>				
Finance	<b>Investment Mobilization for NDCs (collaboration with the FWG and EWG)</b>	<p><b>Early Mover Investment Mobilization Project and Community of Practice</b></p> <ul style="list-style-type: none"> <li>Delivery of TA to Vietnam, Philippines and Bangladesh on private investment mobilization</li> <li>Exchange activities in Asia on private sector investment mobilization: case study, in person training at the ALP Forum, webinars</li> <li>Investment mobilization forums on clean energy and AFOLU – CEADIR</li> </ul>	<p>Q1 2017 onwards – Delivery of TA</p> <p>Q3 2017 – Case study</p> <p>Q3 2017 – in person session at the ALP Forum</p>	<ul style="list-style-type: none"> <li>Evidence of application of learning by at least 80 practitioners per year from events, webinars, and other forums</li> <li>At least five case examples per year of how LEDS GP has strengthened LEDS and NDC</li> </ul>

			<p>March 2017, September 2017 – two workshops on clean energy investment and two workshops on AFOLU investment</p>	<p>policies and measures and investment actions in specific countries</p> <ul style="list-style-type: none"> <li>• At least two case examples per year of how LEDS GP has enhanced capabilities and strengthened LEDS and NDC analysis and planning, including vertical integration</li> </ul>
Energy	<p><b>Renewable Energy Grid Integration (collaboration with EWG)</b></p>	<p><b>Community of Practice and Early Mover Support</b></p> <ul style="list-style-type: none"> <li>• Selection of countries to take part in the CoP</li> <li>• Delivery of training package</li> <li>• REAL support</li> <li>• Funding proposal</li> <li>• Future Energy Expo – selected number of ALP members to join this meeting in Kazakhstan</li> </ul>	<p>Q2 2017 – establishing the CoP</p> <p>Q2 2017 – webinars</p> <p>Q2 2017-Q1 2018 in depth support to 2 countries</p> <p>Q3 2017 – in person session at ALP Forum</p> <p>Q3 2017 – case study and brief</p> <p>Q4 2017 - proposal</p>	<ul style="list-style-type: none"> <li>• Worked with at least five countries per year on early mover initiatives and supported at least one community of practice per year (in cooperation with WGs)</li> <li>• Funding diversification plan established and updated each year as part of work plan</li> <li>• Secure significant ongoing support from at least two sponsors beyond LEDS GP secretariat;</li> <li>• Team with working groups and LEDS GP secretariat on at least one early mover and peer learning proposal per year</li> <li>• Organizing three</li> </ul>
Subnational	<p><b>Multilevel Governance (collaboration with SNI WG)</b></p>	<p><b>Early mover Project and Community of Practice</b></p> <ul style="list-style-type: none"> <li>• Bhutan workshop</li> <li>• Call for applications and selection process</li> </ul>	<p>Q1 2017 – Workshop Bhutan</p> <p>Q1 2017 –</p>	<ul style="list-style-type: none"> <li>• Organizing three</li> </ul>

		<ul style="list-style-type: none"> <li>• Form country teams and development of work plans with each country team</li> <li>• Delivery of technical assistance to country teams</li> <li>• Site visit</li> <li>• Coordination of the preparation of a case study, lessons learned and other dissemination materials</li> <li>• Funding proposal</li> </ul>	<p>Call for proposals</p> <p>Q2 2017 – country selection</p> <p>Q2-Q4 2017 – Delivery of TA</p> <p>Q2-Q4 2017 – Site visit</p> <p>Q1 2018 – Case study</p> <p>Q4 2017 – Funding proposal</p>	<p>webinars and support/preparation of three case studies per annum in partnership with LEDS GP WGs</p> <ul style="list-style-type: none"> <li>• Annual forum to deliver peer-learning and exchange, make connections between practitioners, and identified emerging priorities</li> <li>• Two major training events/workshop per annum</li> <li>• REAL service assistance: Brokered advisory and technical support in collaboration with the Working Groups – At least two sets of assistance to be rolled out</li> <li>• Three significant partnership activities developed and implemented per annum</li> </ul>
Transport	<b>Fuel economy standards and clean public transport fleets (collaboration with the TWG)</b>	<b>Early mover Project and Community of Practice</b> <ul style="list-style-type: none"> <li>• Virtual and In person training sessions</li> <li>• Dissemination of lessons and approaches through webinars and KM materials</li> <li>• In country technical support</li> </ul>	<p>Q1-Q3 2017 – Capacity building virtual training series</p> <p>Q3-Q4 2017 – In person training</p> <p>Q3-Q4 2017 – Case study</p> <p>Q4 2017 – In country TA</p>

		<ul style="list-style-type: none"><li>• Monitoring and evaluation data collection and reporting</li></ul>	Quarterly	

## V. LEDS GP Budget Summary

High levels of in kind support comes from numerous agencies, member countries, partners, and individual members. This includes support for design and delivery of workshops, trainings, webinars, case studies, delivery of technical assistance to countries, among others.

Key sources for the implementation of the program include:

- UK Department for International Development (DFID)
- US State Department
- German Government
- US Agency for International Development (USAID)
- European Commission
- CAF
- Euroclima

There are numerous ongoing efforts for fundraising including some of the following:

- UK Government – DFID and BEIS for potential support for core operations of the LEDS GP and on investment mobilization support
- IKI – additional proposals in 2018 to be submitted
- GCF – exploring the possibility of multi-country proposals on multi-level governance and modeling support
- Norway – potential support for AFOLU and multi-level governance
- Euroclima to support LAC activities on integration of mitigation and adaptation
- German Government – exploring support for the energy sector communities of practice
- Other ongoing discussions with AFD, Switzerland, Sweden, Australia, NDC Partnership, NDC Support Cluster, CIFF, GGGI, ClimateWorks, Hewlett, and various MDBs.

\*Additional support from DFID for LEDS GP Core Activities for 2017 is pending final confirmation
